

Ring Size Conversion Table

A comprehensive table that assigns official ring sizes to their corresponding diameters, applying a ±1 mm tolerance for more direct conversions between systems.

DIAMETER		 European Standard	 USA System	 British Standard	 Japanese Standard	 French System (*)	 Brazilian Standard	 Indian System
Milimeters	Inches	European Union, Russia	United States, Canada, Mexico	UK, Ireland, Australia	Japan, China, South Korea	France, Spain, Italy, Switzerland	Brazil	India
≈11.6	0,46		0					
≈11.9	0,47	37	0.5	A				
≈12.2	0,48	38		B				
≈12.5	0,49	39	1	B½				
≈12.8	0,50	40	1.5	C				
≈13.1	0,52	41		D	1	1	1	1

≈25.4	1,00	80	17	Z+9	39	40	40	40

Data in this table is based on official ring size standards: ISO 8653:2016 (European Union), BS EN 28653:1993 (United Kingdom), NBR 16058 (Brazil), and JIS S 4700:2022 (Japan), as well as commonly accepted sizing systems such as the US ring size system.

- * French system is also known as the Swiss, Italian or Spanish system, depending on the country.
- Official ring sizes are highlighted in gray, but each system has been extended to include additional sizes, offering a more complete conversion table.
